Stan:

This letter is to express my appreciation for the professional manner in which Ward Construction completed Eldorado Elementary School for Douglas County Schools.

I believe that your management skills, proficient scheduling and active involvement played an important part in the project progressing smoothly throughout the construction period. Your assigning two superintendents to our project—one for the building and one for the site—was instrumental in the success of finishing both the building and the extensive landscaping work within the tight time line imposed by the School District.

Again, you and your organization are to be commended for a job well done. We look forward to working with you again in the near future.

Sincerely,

A handwritten signature in black ink that reads "Michael B. Noll".

**Douglas County Elementary Schools #34
LKA Project No. 00-015**

Stan, Douglas County Elementary School #34 is the first project I have worked on which Ward Construction was the General Contractor, and I just wanted to say thank you for your efforts on behalf of Douglas County Schools and congratulations on completing the project on schedule and within budget. Your construction management team was exemplary given the tight construction schedule with which you had to meet.

Through the pre-qualification process in cooperation with the Douglas County School District, we try to identify high quality General Contractors to construct the projects, which we have designed for the School District. It's always a pleasure when we can add a firm like Ward Construction to that list.

The School District appears pleased with the project, and we have heard many favorable comments about the building. LKA Partners, Inc. hopes that your firm too found this project to be rewarding. We look forward to your participation in future projects.

Sincerely,

The LKA Partners, Inc.

Thomas D. Lawrence, AIA.
